

Brief for CPL extra development

GENERAL

1. Final design of main pages: <https://xd.adobe.com/view/be96c821-d297-4986-adee-88e7fea22e35-ebc5/>
2. All of the things below needs to be 100% editable from the backend
3. Add categories to destinations
4. Add categories to hotels
5. Add custom page with all the offers from hotels (that page will have filters)
6. Add offers as custom_post_type to "Hotels"
7. Add "nearby attractions" as custom_post_type to "Hotels"

11. Possibility to book without account (Guest reservation)

HOME - <http://cazare.happydev.ro/r>

1. We need to put here an offer from a specific hotel. This needs to be editable from the back-end:

 Of

2. We need to have multiple categories of search as shown here, these categories being the "Destinations Categories":

The fields will remain the same with the exception that the last button is the "Special offers". So the search has to work only within the special offers from the hotels.

3. We need to put some HTML just below the main section as shown below:

Happy Week!!! **20%** Lorem ipsum dolor sit amet sed ut perspiciatis

from the hotels. We'll have categories, we'll have the location and the expiration date for that offer as shown below:

OFFERS FOR HOTELS

1. We'll have offers depending on/Types of offers:

- hotel
- type of room (if you book a specific room in that time of period you'll get a discount)
- period (if you book in a certain period you'll get a discount)
- payments (if you pay with 50% upfront you'll get a discount)
- no. of persons
- early booking

Basically, you (admin or hotel) will have to create an offer for that specific hotel with the options above. For example:

Hotel Aza has the following offer:

- If you book a "Deluxe Room" starting from 01.10 - 31.10, for 2 persons and if you pay 80% upfront you'll get a price of 150 lei instead of 300 lei

You can have an offer only based by one or more options from above.

We have sketched a process in adding an offer here: <https://xd.adobe.com/view/5df2658a-9dfd-4f2a-5550-423412155c4e-2bc3/?fullscreen>
